The Ergonomic Way

With an ergonomic design to support your hand and a sculpted shape to rest your little finger, the Trust Fyda will make your work day a whole lot more pleasant. And thanks to the wireless range of 10 meters, a DPI switch to adjust the cursor speed and a rechargeable battery, you've got everything you need to get the job done.

Rechargeable

With the Trust Fyda Wireless Mouse, looking for batteries is a thing of the past. It's equipped with a rechargeable battery that can be easily recharged with the included micro-USB cable. And it's not just convenient, it actually helps save the environment, too. You'll never have to throw away empty batteries again.

Extra High DPI

The Trust Fyda does what you expect from a wireless mouse and adds a little extra flair and convenience. It has six buttons, which includes two easy to reach thumb buttons for navigating web pages. It comes with a USB micro receiver with a wireless range of 10 meters, and the DPI switch lets you adjust your cursor speed to extra high settings: 800, 1200, 1600, 2000 and 2400 DPI.

Comfort by Design

This mouse is made to be comfortable to use. The sculpted design and the rest for your little finger means you will use the Trust Fyda for hours on end without strain. And when your work day comes to an end, just switch off the mouse to save the battery and store the USB micro receiver in the mouse itself.

GENERAL

Formfactor	Standard	Ergonomic design	True
Height of main product (in mm)	120 mm	Width of main product (in mm)	43 mm
Depth of main product (in mm)	81 mm	Total weight	108 g
